APPLICATION
Machine for cleaning, filling, smoothing and polishing floors for the construction industry.

Art. 0960S

HANDLE

New handle with double safety system and with selector for 2 speeds. Fitted with protection for hands and accidental ignition.

POWERFUL MOTOR

in central position respect to the brush, for a better handling and balancing during use.

HANDLE ADJUSTMENT

The adjustment of the handle inclination to the right working position is made by a multi-plate clutch, which is more reliable and secure.

STRUCTURE

Structure in aluminium cast, hosting engine, handle and wheels, for an excellent rigidity of the whole set.

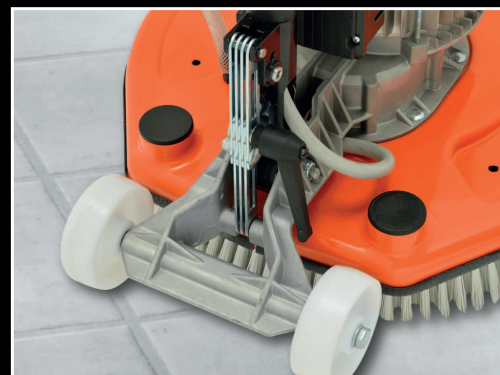

BELL

made in impact resistant steel, provided with rubber edge and designed for dust aspiration.

DUST ASPIRATION

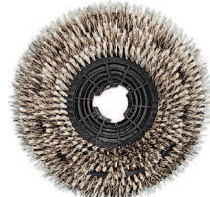

Universal joint for dust aspiration.
